TRASH, DON'T FLUSH

THE WATER HAS ENOUGH HEADACHES ALREADY.

Flushing unused medications down the toilet or drain can contaminate our vulnerable water resources and harm fish, other wildlife and people. Instead, do the water-friendly thing and dispose of medications in your household trash. Exact methods vary by medication, and you can find specific details at **www.pca.state.mn.us/hhw*** It's the right prescription for safer water, and one more water hazard we can all avoid.

**Under the* For Consumers *heading on the right, click on "Fact Sheets," and then the "Pharmaceutical Waste" PDF.*
