BOARD/STAFF REPORTS

ATTORNEY ADAM RIPPLE – Adam Ripple was present to discuss his letter of opinion regarding water rates being fair and equitable. *(A copy is hereby attached and marked Exhibit A)*

Mayor Hagen reported that there is petition going around town and we have a response to it.

Rena Weber explained that the city was notified that a petition is going around regarding the water rates. 20% of the registered voters are needed to sign the petition. The petition is sent to Stearns County for review of the signatures.

Adam explained that there may not be a state audit. The State will meet with the petitioners or a committee first to determine if there is a need for an audit. These can be full blown or they can be nothing. The city is responsible for the cost of such an audit.

Mayor Hagen asked when does the meter start – at the time of the meeting with the petitioners. Adam was not sure, but it could be at that time.

Member Willenbring asked if the auditor determines the scope of work. Adam indicated the state auditor will request some feedback from the petitioners and the city and then they will determine the scope of work.

Member Willenbring asked does the state auditor just come in to the city and ask questions. Adam indicated there is not a specific process on how they do things, but they do things strictly by the letter of the law. They have the power to determine how much and what they are going to look at.

Member Willenbring then asked what the cost is. Adam indicated that it is similar to what they have charged in the past. It depends on the circumstances. It usually charged on an hourly rate.

Rena Weber reported that the City of Cold Spring spent \$10,000 in 1982 for a full city audit. Freeport just went through an audit which cost them \$20,000. The city auditor said it is usually twice the cost of what their audit is. She also talked to Teri from MNRWA who indicated that they sometimes do not charge anything.

Member Volkmuth asked if the city should send a letter to the residents. Adam indicated that is not a legal question – rather a political one. Sometimes it can legitimize your efforts and sometimes it can cause more concern. If there is misinformation out there you might want to stop that.

Member Simon stated that not all citizens are on city water – If you pay for this out of the general fund you will have some citizens upset.

Adam indicated there has to be specific information on the petition alerting people to what they are asking and he did not want to go into that.

Mayor Hagen indicated that we have a full time person doing this, a system has been established and we have been following it for years. We hired a consultant to review the rates who is very reputable and our rates are entirely supportable. When he sees a petition with issues and with the way it is being presented deceptively he feels it would be prudent for us to avoid an expense that may reach \$10,000. He further feels it is worth the time and effort to create and mail a letter to the citizens. He asked for a vote to send the letter out.

Member Volkmuth moved to approve the letter. Other members needed time to read the letter first so Member Volkmuth withdrew his vote.

Open meeting law – Rena Weber reported that it is her understanding that she can email the entire council, but the council should not reply to all – only her. We also need to report that we have the e-mail book available. Information is disposed of in accordance with the retention policy.

Adam agreed with Rena and the fact council should not reply-all in order to avoid any appearance of serial meetings. Information in the e-mail book is public.

Member Willenbring asked if Rena sends out information and if one member replies all that would be a violation of the open meeting law. Adam – not necessarily. The content of what is in the e-mail could be considered a violation if that person is expressing their thoughts on a certain vote.

Member Willenbring asked what are the consequences. Adam indicated there are criminal consequences; it could be a petty misdemeanor. The third occurrence is removal from office although fines are set at \$300 per violation.

Member Willenbring stated that statutes says any person intentionally violating the open meeting law while serving as a member of a public body shall forfeit the right to serve on the governing body equal to the term length of office held. Adam – that is after the third offense.

Administrator/Clerk Weber's questions for the attorney:

- 1) The city has gone through two elections using the combined polling place at city hall. What is the procedure to combine precincts should the council agree? Resolution. Member Volkmuth asked if there were any ramifications. There are two school districts. Rena indicated that we deal with that now.

Member Volkmuth introduced the following resolution and moved for its adoption:

Resolution # 2013-10

Resolution Combining Polling Precincts

WHEREAS, the City of Rockville has determined combined polling precincts will better serve the citizens of Rockville, and;

WHEREAS, the voting members voted in one polling place for the 2012 elections, and;

WHEREAS, the existing polling location of Rockville, Minnesota has ample room to accommodate the polling place location for the precincts of 1 and 2 and meets the accessibility requirements.

NOW THEREFORE, Be it resolved, that commencing with elections after this date, the City of Rockville will be combining the Precincts of P1 and P2 into one precinct. Elections will be conducted at the Rockville City Hall, 229 Broadway Street East, Rockville, Minnesota, using the Optech III-P Eagle optical scan and Automark voting equipment.

Attached to this resolution, for illustrative purposes, is a map of the entire city and the location of the polling place.

The motion for the foregoing resolution was duly seconded by Member Willenbring with the following vote being taken:

AYES: Hagen, Simon, Volkmuth & Willenbring.

Motion passed on a 4 to 0 vote.

- 2) As you know we pass ordinances by way of public hearing – which is what we just went through with the water rate increase. I understand that some cities like Richmond approve their water fees as part of approving the fee schedule at the beginning of the year without public hearing. I did get a copy of their enabling resolution. The question would be can we switch the way we are doing it without public outcry?
Adam indicated that he does not necessarily agree with handling the fees through an annual approval.

- 3) Recently I learned that the State of MN combined non-conforming lots together (Shoreland) to make one big lot. (See attached e-mail from Dan Kron) This was not highly published and I actually have a situation on Grand Lake where this occurred. Susan Dean would like to split her lot now and pending my review of the impervious surface coverage and what is left to split – can we even do this?
Adam indicated that no we could not split this up unless they can be a conforming lot. The city can be more restrictive and if it meets the requirements of the state you can allow it.

POLICE DEPARTMENT – Sgt. Jon Lentz was present to report that there were 38 contract hours in February and went through the citations.

PUBLIC HEARINGS

BURG STREET – 2013 STREET IMPROVEMENTS - Mayor Hagen announced that a public hearing would now be called to order at 6:33 p.m. to consider improvements to Burg Street and the adjoining cul-de-sacs.

Engineer Dave Blommel reported on the project FAQ sheet that was provided for the hearing indicating what improvements are being proposed, how the assessment was calculated, capping the assessment at 200' and how that does not apply here, project schedule and does the assessment change if the bids come in higher. *(A copy is hereby attached and marked Exhibit B)*

- Question on Alvin Court replacement – Dave reported that the special spots will be taken care of.
- Bob Weidner – 9111 Marlene Court asked what are the weight restrictions – 7 ton
- Darwin Voigt – Merrifield, MN asked if this will be good enough for garbage trucks and school buses – yes
- Jim Holmquist 25909 Burg Street– Will this slow traffic down? No but could put up signs and have the cops up there.
- Brian Klocker - 25901 Burg Street asked did we opt out of the 200' option – Dave explained the 200 is capped for agriculture land and that this was how we charged Lena Lane. We need to be consistent, but it is the council discretion and they need to be fair and equitable.

Motion by Member Volkmuth, second by Member Simon, to close the hearing at 6:46 p.m. Motion carried unanimously.

Mayor Hagen introduced the following resolution and moved for its adoption:

RESOLUTION NO. 2013-11

Rockville, Minnesota**

WHEREAS, a resolution of the city council adopted the 17th day of April, 2013, fixed a date for a council hearing on the proposed road improvement:

The motion for the foregoing resolution was duly seconded by Member Willenbring

with the following vote being taken:

AYES: Hagen, Simon, Volkmuth & Willenbring.

Motion passed on a 4 to 0 vote.

HOLLY ROAD AND 80TH AVENUE – Mayor Hagen announced that an information meeting would now be called to order to discuss improvements to Holly Road and 80th Avenue. Residents of the Holly Road area petitioned for the improvement 100% in 2012, but the cost was for a lesser designed project. The City Council at that time chose to not put money into a sub-standard road if it was not designed to last 20 + years. At this time the engineer provided an updated cost estimate for both Holly Road and 80th Avenue – both being assessed at 100%

Residents had lots of questions regarding the information that was sent out last year.

Member Volkmuth explained how it changed from 27 to 100% in that the soil boring tests came back and it warranted looking at further so the council determined not going ahead last year.

After much discussion Mayor Hagen indicated that the consensus is that residents want the assessment to be split 27% / 73% on Holly Road.

Member Volkmuth stated that if we do Holly Road it has to last 20 year before we look at it again. If people agreed to this in writing this could be reconsidered.

Engineer Blommel will review the numbers from the previous estimate to determine what was different this year from last year. We may just do Holly Avenue now and 80th later.

PRAIRIE INDUSTRIAL PARK RE-ASSESSMENT – Mayor Hagen announced that a public hearing would now be held to consider the re-assessment of special assessment to a forfeiture parcel 76.42146.0807 that was sold at the public auction in 2012.

Darwin Voigt was present to report that he purchased the lot for \$34,200 not the \$68,400 it is still valued at on the tax rolls. He also reported that a \$16,000 assessment was not told to him when he purchased the lot.

Member Volkmuth indicated that he has value there.

Mayor Hagen stated that we need to check this out. These are hard costs we are re-assessing and he wants to check with Stearns County as to what information was given at the time of sale.

Darwin questioned the interest rate, beginning payment status and could he get a reduction if he paid it all.

Rena Weber reported that the notice she sent out looked for the first payment due by November, 2013. According to what the city told Stearns County it would be charged at 4% interest for 5 years.

Motion by Member Volkmuth, second by Member Willenbring, to close the public hearing at 7:32 p.m. Motion carried unanimously.

Mayor Hagen introduced the following resolution and moved for its adoption:

RESOLUTION NO. 2013-12

NOW, THEREFORE BE IT RESOLVED, by the City Council of the City of Rockville, Stearns County, Minnesota, as follows:

- 1. Such proposed re-assessment, a copy of which is attached hereto and made part hereof is hereby accepted and shall constitute the re- assessment against the land named herein, and each tract of land there is hereby found to be benefited by the proposed improvements.***
- 2. Such re- assessment is hereby attached and marked Exhibit C.***
- 3. The owner of the property so assessed may at any time prior to the certification of the assessment to the County Auditor, pay to the Administrator/Clerk, and thereafter, at any time prior to November 15 of any year, pay to the County Auditor or Administrator/Clerk, the whole of the principal amount of the assessment on such property provided that no such prepayment shall be accepted without payment of all installments due to and including December 31 of the year of the prepayment, and the original principal amount shall be reduced only by the amounts of principal included in such installments computed on an annual amortization basis.***
- 4. The Administrator/Clerk shall forthwith transmit a certified duplicate copy of this assessment to the County Auditor to be extended on the tax list of the County.***
- 5. If the purchaser was not informed of the re-assessment at the time of sale and this can be verified, the council may entertain a change at the May 1, 2013 meeting.***

OPEN FORUM

Rick Tallman 25594 Lake Road – prepared a statement that he wants included in the city minutes. *(A copy is attached and marked Exhibit D).*

Mayor Hagen reminded Mr. Tallman of the four minute limit and also the statement he wants included is his opinion.

Member Willenbring had other questions he wanted to ask the attorney so he asked the Administrator.

- Year end audit available – Rena said it will be next month
- Item B request for data practices – can it be inspected – Yes for free
- Can copies be made of the data – yes there is a cost of \$.25/page
- If someone (Mr. Tallman) makes a request – are they aware there will be a bill? Yes they are notified that they will be charged for the information.

Mayor Hagen clarified what Tудie Hermanutz asked regarding the charging for time spent by staff. The city is going to accommodate as much as possible, but Member Willenbring was asking are we going to charge somebody after the fact without telling them ahead of time. Rena answered that already in that we are going to charge \$.25 per page for copies and we will tell you ahead of time that we are going to charge you. We are going to charge for excessive work.

Member Simon reported that there was one more snow storm and our machines took a beating so it may take a little longer for the next snow storm.
