P&R
FIRE

Dear Mayor Hagen:

STEARNS COUNTY, MINNESOTA FLOOD INSURANCE STUDY

You recently received a Letter of Final Determination (LFD) from the Federal Emergency Management Agency (FEMA) dated August 16, 2011. This LFD explained that the report titled "Flood Insurance Study, Stearns County, Minnesota And Incorporated Areas," and the accompanying flood insurance rate map panels, will become effective on February 16, 2012 (which is 6 months from the date of the LFD).

This letter is intended to address the statement in the LFD that advised your community to adopt floodplain regulations compliant with 44 Code of Federal Regulations, Section 60.3 by the February 16, 2012 study/map effective date. As the State Coordinating Agency for the National Flood Insurance Program (NFIP), DNR staff person Roger Stradal from our Sauk Rapids' Area Office will be providing direct assistance to your community during this 6-month floodplain ordinance adoption period.

Mr. Stradal will advise your staff whether your community should adopt an entirely new floodplain ordinance or amend the floodplain regulations already in existence in your community. I strongly encourage your community to contact Mr. Stradal as soon as possible to initiate this process so as to prevent your community from being suspended from the National Flood Insurance Program should you not meet the 6-month deadline.

We strongly encourage your community to submit a draft floodplain ordinance/ ordinance revision to Mr. Stradal no later than November 16, 2011 (which is the midpoint of the 6-month adoption period). This allows time for our review/approval as required by state statute, your community to complete the adoption/ publication process, and for an adopted/certified copy of the legally enforceable ordinance to be sent to the Federal Emergency Management Agency's Chicago Regional Office in Chicago no later than the study/map effective date.

If FEMA follows its normal practice, your community should be receiving a hard copy of the flood insurance study text and the respective flood insurance rate map panels for your community by approximately December 16, 2011. Some communities have expressed their concern that they must have the final study/maps in their possession when they initiate the ordinance adoption/amendment process. Therefore, we have made arrangements with FEMA and we anticipate placing an electronic version of the final flood insurance study text and flood insurance rate map panels on our ftp site at ftp://ftp.dnr.state.mn.us/pub/waters/floodplain/County_data/ within 30 days of this letter.

The Honorable Jeff Hagen
August 29, 2011

Page 2

The FEMA has advised us that, without exception, a community will be suspended from the National Flood Insurance Program if the required floodplain ordinance documents are not received by their Chicago Regional Office by the study/map effective date. A suspended community may be reinstated at a later date upon the community: 1) submitting the required floodplain ordinance language; and 2) either documenting that no improper floodplain development has occurred since the study/map effective date or demonstrating that any improper floodplain development has been properly mitigated. During the suspension period, no flood insurance policies could be written or renewed in a suspended community. This would have a serious impact on people exposed to flood damage or those who are trying to purchase homes in designated 100-year floodplain where flood insurance is a requirement of the loan.

Mr. Stradal's mailing address is DNR, Ecological & Water Resources' Division, 940 Industrial Drive So., Suite # 103, Sauk Rapids, MN, 56379. Please feel free to contact Mr. Stradal at any time at (320) 255 – 2976, ext. 233 or at roger.stradal@state.mn.us should you wish to discuss this further.

Sincerely,
DNR Ecological & Water Resources' Division

Ceil Strauss, CFM
State Coordinator, National Flood Insurance Program

Rockville, MN 56369

Community: City of Rockville,
Stearns County, Minnesota
Community No.: 270454
Map Panels Affected: See FIRM Index

Dear Mayor Hagen:

This is to formally notify you of the final flood hazard determination for your community in compliance with Title 44, Chapter I, Part 67, Code of Federal Regulations. On July 16, 1979, the Department of Homeland Security's Federal Emergency Management Agency (FEMA) issued a Flood Insurance Rate Map (FIRM) that identified the Special Flood Hazard Areas (SFHAs), the areas subject to inundation by the base (1-percent-annual-chance) flood, in the City of Rockville. Recently, FEMA completed a re-evaluation of flood hazards in your community. On December 31, 2009, FEMA provided you with Preliminary copies of the Flood Insurance Study (FIS) report and FIRM that identify existing flood hazards in your community.

FEMA has not received any comments on the Preliminary copies of the FIS report and FIRM. Accordingly, the FIS report and FIRM for your community will become effective on February 16, 2012. Before the effective date, FEMA will send you final printed copies of the FIS report and FIRM.

Because the FIS for your community has been completed, certain additional requirements must be met under Section 1361 of the National Flood Insurance Act of 1968, as amended, within 6 months from the date of this letter. Prior to February 16, 2012, your community is required, as a condition of continued eligibility in the National Flood Insurance Program (NFIP), to adopt or show evidence of adoption of floodplain management regulations that meet the standards of Paragraph 60.3(d) of the enclosed NFIP regulations (44 CFR 59, etc.). These standards are the minimum requirements and do not supersede any State or local requirements of a more stringent nature.

It must be emphasized that all the standards specified in Paragraph 60.3(d) of the NFIP regulations must be enacted in a legally enforceable document. This includes adoption of the current effective FIS report and FIRM to which the regulations apply and the other modifications made by this map revision. Some of the standards should already have been enacted by your community in order to establish eligibility in the NFIP. Any additional requirements can be met by taking one of the following actions:

1. Amending existing regulations to incorporate any additional requirements of Paragraph 60.3(d);
2. Adopting all the standards of Paragraph 60.3(d) into one new, comprehensive set of regulations;
or

3. Showing evidence that regulations have previously been adopted that meet or exceed the minimum requirements of Paragraph 60.3(d).

Communities that fail to enact the necessary floodplain management regulations will be suspended from participation in the NFIP and subject to the prohibitions contained in Section 202(a) of the Flood Disaster Protection Act of 1973 as amended.

In addition to your community using the FIS report and FIRM to manage development in the floodplain, FEMA will use the FIS report to establish appropriate flood insurance rates. On the effective date of the revised FIRM, actuarial rates for flood insurance will be charged for all new structures and substantial improvements to existing structures located in the identified SFHAs. These rates may be higher if structures are not built in compliance with the floodplain management standards of the NFIP. The actuarial flood insurance rates increase as the lowest elevations (including basement) of new structures decrease in relation to the Base Flood Elevations established for your community. This is an important consideration for new construction because building at a higher elevation can greatly reduce the cost of flood insurance.

To assist your community in maintaining the FIRM, we reviewed our records to determine if any previous Letters of Map Change (i.e., Letters of Map Amendment, Letters of Map Revision) will be superseded when the revised FIRM panels become effective. According to our records, no Letters of Map Change were issued previously for the affected FIRM panels.

The FIRM and FIS report for your community have been prepared in our countywide format, which means that flood hazard information for all jurisdictions within Stearns County has been combined into one FIRM and FIS report. When the FIRM and FIS report are printed and distributed, your community will receive only those panels that present flood hazard information for your community. We will provide complete sets of the FIRM panels to county officials, where they will be available for review by your community.

The FIRM panels have been computer-generated. Once the FIRM and FIS report are printed and distributed, the digital files containing the flood hazard data for the entire county can be provided to your community for use in a computer mapping system. These files can be used in conjunction with other thematic data for floodplain management purposes, insurance purchase and rating requirements, and many other planning applications. Copies of the digital files or paper copies of the FIRM panels may be obtained by calling our Map Service Center, toll free, at 1-877-336-2627. In addition, your community may be eligible for additional credits under our Community Rating System if you implement your activities using digital mapping files.

If your community is encountering difficulties in enacting the necessary floodplain management measures, we urge you to call the Director, Federal Insurance and Mitigation Division of FEMA in Chicago, Illinois, at (312) 408-5529, for assistance. If you have any questions concerning mapping issues in general, please call our Map Information eXchange (FMIX), toll free, at 1-877-FEMA MAP (1-877-336-2627). Additional information and resources your community may find helpful regarding the NFIP and floodplain management, such as *The National Flood Insurance Program Code of Federal Regulations*, *Answers to Questions About the National Flood Insurance Program*, *Frequently Asked Questions Regarding the Effects that Revised Flood Hazards have on Existing Structure*, *Use of Flood Insurance Study (FIS) Data as Available Data*, and *National Flood Insurance Program Elevation Certificate and Instructions*, can be found on our website at <http://www.floodmaps.fema.gov/lfd>. Paper copies of these documents may also be obtained by calling our FMIX.

Sincerely,

A handwritten signature in black ink, appearing to read 'Luis Rodriguez', with a large, stylized flourish at the end.

Luis Rodriguez, P.E., Chief
Engineering Management Branch
Federal Insurance and Mitigation Administration

REQUEST FOR COUNCIL ACTION

Originating Department
Park & Recreation

Requested By:
Park & Recreation Board

Date:
9/14/2011

We as the Rockville Park & Rec Board are requesting that the City of Rockville make a request to the county to do a "speed study" on County Road 139 north of the bridge.

Because of the increase use of Eagle Park and the addition of the new County park, we feel a traffic study would be beneficial at this time to address safety concerns.
