RE: Payment Plan for Sewer Stub

Dear City Council Members,

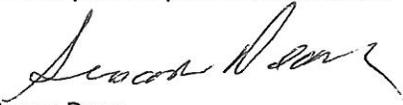

The Dean Family has owned property on Grand Lake for almost 65 years and *for estate planning purposes I would like to purchase one of the remaining sewer stubs for the parcel being created by the split and are requesting that the \$7000. cost be spread out over as many years as possible.*

I am so fortunate to have such a wonderful life living on Grand Lake and it is my dream to spend every possible day of my life looking out over the lake I so love. The Gazebo, as we call it, is the core to a large extended family who for over 65 years has gathered here and I so desperately want to continue the legacy my father, Don Dean began.

There are no plans of development on the second parcel created in splitting the current parcel. This is only about good future planning for myself and the family.

I am asking you to please consider extending the \$7000. Sewer stub investment payments out as long as possible.

Thank you for your consideration.

Susan Dean
