RE: Water Discharge Invoice #11-45 dated 9/12/11

Dear Ms. Weber,

I am writing this as a follow-up to a letter submitted by Mr. James Schueller on July 25th, 2011. In that letter Mr. Schueller disputes the city's claim that S.J. Louis discharged a large amount of water into the sanitary sewer system. Although we maintain that position, S.J. Louis wishes to work with the city on an amicable resolution to this dispute.

S.J. Louis is willing to pay the \$1,726.51 assessed by the city for additional water that was discharged in exchange for the city dismissing the \$200 administrative fine as well as any accumulated late charges. Also, we request that the city accept payment directly from S.J. Louis and that the city contact Stearns County and have the \$2,331.08 that was assessed on our property tax statement removed.

Since moving to Rockville in 2008 S.J. Louis has always maintained a good relationship with the city including making a sizable contribution to the city's proposed bike trail as well as patronizing other business in the Rockville community.

I hope the city will take this proposal into consideration. Please contact me at 320-253-9291 Ext 331 to discuss.

Sincerely,

Brian Schwegel
Accounting Manager
S.J. Louis Construction, Inc.
