

FREE Emerald Ash Borer Field Workshops

Minnesota Department of Agriculture (MDA) staff will be leading free EAB Field Workshops in the St. Cloud area. These hour-long outdoor workshops will provide an opportunity to get a firsthand look at EAB-infested trees and will assist the community in becoming familiar with early detection. General EAB biology, distribution, management, regulation and treatment will also be covered. Workshops are provided free of charge through support from the US Forest Service. Additional EAB Field Workshops will be offered at other locations in late winter or early spring.

Registration

Registration is available at www.mda.state.mn.us/eab or by calling 651-201-6097. Maps and parking instructions will be provided by e-mail with registration confirmation. Please choose one of the workshop sessions available below.

Rockville – Intersection of Agate Beach Road and Mitchell Lane, Rockville, MN 56301
